

PHE 4300: Environmental Health Issues

3 Credit Hours

Prerequisite: PHE 2100 or IHS 2100

This course will examine issues associated with environmental factors and conditions and their impact on the health of individuals and communities. Topics will include environmental epidemiology, toxicology, policy, and regulation as well as environmental agents of disease and the implementation of environmental interventions to improve public health and safety.

PHE 4350: Methods of Public Health Research

3 Credit Hours

Prerequisite: (PHE 3150 or STAT 3125) and PHE 3850

This course offers a comprehensive introduction to the research process including the development and exploration of a single research question using empirical data, elements of the research process within quantitative, qualitative, and mixed methods approaches, and the submission and review process of a research manuscript.

PHE 4400: Directed Study in Public Health Education

3 Credit Hours

Prerequisite: PHE 2100 and permission of the instructor

Field, research, and/or academic experience under the supervision of a KSU course instructor will provide students the opportunity to work with internal and external academic partners outside of the traditional classroom setting.

PHE 4490: Special Topics in Public Health Education

3 Credit Hours

Prerequisite: WELL 1000 or WELL 2000

This upper-division course focuses on current and pertinent topics and content specific to the public health education discipline not regularly offered through the HPE Department.
