

# **Chemistry Minor**

## **Program Description**

The Chemistry minor consists of 16 semester hours. Courses taken in the Core Field of Study may be counted as coursework in the minor. Courses taken to satisfy the General Education IMPACTS core may not be counted as coursework in the minor. Students must earn a grade of at least "C" in all course work applicable to a formal minor. When a student's major and minor programs require the same courses, there is no limit on duplicate credit.

We require that a student develop the minor courses with a chemistry advisor and with the approval of the student's major advisor. Biochemistry majors are excluded from earning a minor in Chemistry. At least 6 hours of chemistry must be taken at KSU to satisfy the minor upper-division requirement.

At a minimum, the following courses must be taken as part of a student's course of study for a student to earn a minor in Chemistry.

This program is a part of the College of Science and Mathematics.

## **Admission, Enrollment, and Graduation Policies**

### Admission Requirements

This program does not have specific admission requirements and only Admissions to Kennesaw State University is required.

### Graduation Requirements

Each student is expected to meet the requirements outlined in the Academic Policies: 5.0 PROGRAM REQUIREMENTS & GRADUATION.

## **Program Course Requirements**

### **Required Courses**

- CHEM 2800: Quantitative Analytical Chemistry
- CHEM 2800L: Quantitative Analytical Chemistry Laboratory
- CHEM 3361: Modern Organic Chemistry I
- CHEM 3361L: Modern Organic Chemistry Lab I
- Any 3000- or 4000-level CHEM courses to make the total number of CHEM credit hours equal to 16.

**Program Total (16 Credit Hours)**
