

RES 4100: Responsible Conduct of Research

0 Credit Hours

The responsible conduct of research is an underpinning of the research enterprise. All researchers need to operate within a set of professional ethics that guide their decision-making. The purpose of this course is to provide researchers the opportunities to read about, consider, and discuss the responsible conduct of their own research. The course is intended to meet the current NIH and NSF requirements for training in the responsible conduct of research.

This course may be cross-leveled with RES 6100.

RUSS 1001: Elementary Russian I

3 Credit Hours

Introduction to the Russian language and culture, stressing progressive acquisition of effective communications skills in both the written and spoken language and an understanding of the practices and products of the culture being studied.

RUSS 1002: Elementary Russian II

3 Credit Hours

Prerequisite: RUSS 1001, or by placement, or the equivalent

This course stresses continued, progressive acquisition of effective communication skills in both the written and spoken language and an understanding of the practices and products of Russian culture.

RUSS 2001: Intermediate Russian I

3 Credit Hours

Prerequisite: RUSS 1002

Builds upon acquisition of communication skills begun in high school. The student will continue to develop proficiency in listening, speaking, reading and writing and learn to communicate in culturally appropriate ways.

RUSS 2002: Intermediate Russian II

3 Credit Hours

Prerequisite: RUSS 2001

Students continue to increase linguistic and cultural proficiency through the use of a variety of materials and activities.
