

Information Security and Assurance Certificate

Program Description

The Certificate in Information Security and Assurance is designed for students with an interest in Information Security and its application in the expanding field of technology. The certificate program emphasizes the skills and knowledge necessary to protect and inspect systems, and to detect and react to threats to the security of information in those systems. The certificate requires 15 semester hours (5 courses), and all coursework must be completed with a grade of "C" or better.

This certificate cannot be awarded to students who earn the Information Security and Assurance, B.B.A. or the Cybersecurity B.S.

This program is a part of the Michael J. Coles College of Business.
