

Logistics Certificate

Program Description

The primary objective of the Certificate in Logistics is to provide training and education to members of the Supply Chain industry that need to improve skills and knowledge in the latest technology available in their field. Students can complete the requirements in 4-6 semesters. The courses may also be applied toward completing a B.S. degree with a major in Industrial Engineering Technology. The program will be offered on campus and through distance learning.

Program Student Learning Outcomes:

- A. Demonstrate a conceptual knowledge of logistics
- B. Communicate effectively in written and presentation skills
- C. Utilize support and research systems for logistics
- D. Demonstrate an ability to plan, execute and critique sound logistics concepts and ideas

This program is a part of the Southern Polytechnic College of Engineering and Engineering Technology.

Admission, Enrollment, and Graduation Policies
