

## **PSYC 3340: The Psychology of Family Interaction: A Developmental Perspective**

### **3 Credit Hours**

*Prerequisite: PSYC 1101*

An in-depth coverage of the psychological dynamics involved in parent/child relationships. A developmental approach will be employed to explore the changing needs and demands of the child and the parents as each progress in their own development. Current research and theory concerning parenting techniques, the psychological atmosphere of the home and the interaction of the child's temperament with the parents will be discussed. Contemporary family issues such as daycare, domestic violence, single parenting and children with special needs will be presented.

## **PSYC 3355: Cross-Cultural Psychology**

### **3 Credit Hours**

*Prerequisite: PSYC 1101*

An overview of the study and application of psychological principles from a global cultural perspective, including Asian, African, European and North and South American cultures. Topics such as cognition, attitude structure and change, interpersonal communication, personality and mental health will be discussed in the contexts of different cultural orientations in the world, and both between and within-group differences and similarities will be discussed.

## **PSYC 3365: Human Sexuality**

### **3 Credit Hours**

*Prerequisite: PSYC 1101*

An examination of the biological, personal, interpersonal and social aspects of human sexual behavior. Topics include: sexual values, sex and gender, sex and love, sexual behavior over the life span, reproduction, sex and health, sexual dysfunction and treatment, and social problems/issues related to sexual behavior.
