Interactive Design Minor

Program Description

The Minor in Interactive Design introduces students to core skills used by interaction designers. Students majoring in other disciplines will acquire functional abilities with design-related tools, learn and apply principles of user interface design, be introduced to front-end development, and more that they can directly apply to their own majors, use to land jobs, and get ahead in their careers.

This program is a part of the Norman J. Radow College of Humanities and Social Sciences.
